GRIP

Grip usually starts just the same as a cold with a watery discharge from the nose. You are much more likely to contract the grip when you have a cold. For that reason when grip is prevalent you should go to bed as soon as you feel that you are taking cold and stay in bed until fully recovered which should not be long if you take Chamberlain's Cough Remedy. Three days in bed now is better than three weeks later on. adv.-68-4t.
